7.使用

■ 7-1.デバイスへの充電

1. 充電ケーブルの場合

USB-Cケーブルを使用して、本製品とパソコンを接続します。

- ① 充電ケーブルをデバイスに接続しない場合は、1パッチの充電表示LEDは点灯しません。

※Power Delivery(PD)充電

ケーブルを、20W未満の充電ケーブルに接続すると、充電速度は速くなる場合があります。

※対応する充電ケーブルと対応する充電ケーブルが必要です。

8

[illegible]

3. ワイヤレス充電
(スマートフォン以外の小型デバイス)の場合

本製品の「ワイヤレス充電エリア」は、デバイスのワイヤレス充電ポイントと合わせます。

※ワイヤレスによりワイヤレス充電ポイントとの距離は異なります。

※ワイヤレス充電は製品仕様とデバイスの位置がずれると正しく充電されませんのでご注意ください。

※すべてのワイヤレス機器での動作を保証するものではありません。

※充電ケーブルは付属のケーブル、ワイヤークリップが推奨です。

特充電

The diagram shows a power source (represented by a circle with a lightning bolt) connected to a device (represented by a rectangle with a lightning bolt) via a cable. The device is labeled "本製品" (This product).

電入

本製品

MagSafe対応スマートフォンなど

ケーブルを充電器と接続し、電源ケーブルに接続します。自動的に充電の開始されない場合は、本体側（バッテリー）残量確認ボタンを押してください。

5. バススロー充電

The diagram shows a power source (represented by a circle with a lightning bolt) connected to a device (represented by a rectangle with a lightning bolt) via a cable. The device is labeled "充電器" (Charger).

充電器

① 製品本体と充電器を充電ケーブルにて
② MagSafe対応のモバイルファンタムとワイヤレス充電ユニットに設置・設置させます。

- バススロー充電とはモバイルバッテリーをデバイスで充電できる機能です。
- 本製品は、対応デバイスへ一瞬に接続した時にモバイルバッテリーの端子を通じて、バススロー充電の機能を有する。バススロー充電により、充電速度が通常の充電よりも速く、充電完了まで約半分の時間で充電が可能です。
- 充電中は発熱が発生するため、別途冷却が必要です。
- 接続するデバイスにより、充電速度・時間が増減します。
- ケーブルと充電器の両方に温度センサーが搭載されています。

11

12

[illegible]

■ 7-2. 製品本体への充電

付属のUSB-Cケーブルを使用して、充電アダプターに接続します。本品は、充電時にUSB-Cポートの表示のLED（バッテリー充電量を示す）が点灯し、「100」と表示されれば充電完了です。

USB 充電アダプター Type-C 入力

- 急速充電(Power Delivery)を行なうためには、急速充電に対応した充電器と、急速充電に対応したケーブルが必要です。
- 製品固有のバッテリーの充電量を表示するLED（バッテリー充電量を示す）が点灯して、100%の充電量に達するまでの経過です。この期間中に充電器を充電ケーブルから取り外しても充電は完了します。
- 最大20Wの急速充電を行なうためには、20W出力に対応した電源アダプターが必要です。
- 充電量は短くなります。別途ご確認ください。

急速充電は保証外です。迅速・遅延する場合があります。

以下の場合は保証対象外です。

- 1. 使用上の誤りによる故障
- 2. 使用環境による故障
- 3. 火災、水害などによる故障

8. 製品保証

○ 当社の商品をご購入いただき誠にありがとうございます。
 ○ 不具合がある場合、初期不良品として交換対応をいたします。
 ○ 故障が発生して保証期間内に発生した故障の場合も対応させていただきます。

もしもは、販売店レシートが
 となりますので大切に保管してください。

○ 保証期間とさせていただきます。
 ○ 保証の範囲でのご対応となります。

を裏面にいたしなますので、ご了承ください。

○ 不注意による事故(落下や水没など)。
 ○ 意での内部改修による故障。

による故障。

4 Specifications

or modifications not expressly approved by the party responsible for this device could void the user's authority to operate the equipment. This device has been tested and found to comply with the limits for a Class B device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential environment. This equipment generates uses and can radiate radio frequency energy and, if not installed and used properly, it could cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If you do experience interference, you may wish to take the following steps to reduce the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Move the equipment away from the receiver.
- Plug the power cord into a different wall outlet to which the cord is not connected.
- Consult the dealer or an experienced radio/TV technician for help.

Interference Exposure Statement This device has been evaluated to meet FCC equipment requirements. The device can be used in portable equipment without restriction.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference, and
- This device must accept any interference received, including interference that could cause undesired operation.

When disposing of this product,

We recommend using CO2 battery withdrawal service.

7.How to Use

■ 7-1.How to Charge Devices

1. Charge via Cable

Use the USB-C cable to connect this product to your device for charging.

Charging does not start automatically when the charging cable is connected to the device.

! If not press the "Battery level check/wireless charging button" Please press.

"A 20W or higher charging adapter that supports Power Delivery (PD) charging is recommended. Charging is possible with a charging adapter less than 20W, but the charging speed may be slower."

"If you do not have a compatible charging adapter, we recommend the charging adapter sold by CIO."

① When you show in the Q18 the device's status, the status of the device will be shown.

● Qi2 output charging

● Be sure to turn off the power before using it.

● During wireless charging, this is a normal phenomenon.

"In summer, smartphones and smartwatches overheat when the device's internal temperature rises. If you are in a well-ventilated

Charging to Qi2 compatible devices

by

Wireless charging point

bring this product close to the wireless charging point as shown above, it will be magnetically attracted and will not charge, press the wireless charging start button, your device is properly connected to the wireless point.

is maximum 15W.

check that the connected device will not fall from this product with unstable force, there is a risk of damage due to falling.

less charging, the product and device may become hot, trial specification.

high-temperature environments, charging may stop if the (especially iPhone) exceeds a certain temperature due to the trial protection mechanism. This is a safety feature to protect the device and is not a product malfunction.

concerned about heat, we recommended using the product in a cool area or combining it with wired charging.

3. Wireless Charging for Small Devices Other than Smartphones

Adjust the wireless charging area of the product and the charging point of the device.

The wireless charging point often depending on the device.

For AirPods that support MagSafe charging start when the AirPods are autooriented onto the image above.

When using wireless charging, please be aware that the product may get warm and the device is misaligned.

*Operation with all wireless devices is not guaranteed.
*Charging time varies depending on device type.

11

12

4. Two Device Simultaneous Charging

Smartphones

Wireless Charging Area

Cable charging device

MagSafe compatible smartphones

SMARTCOBY SLIM

When performing wireless charging, please pay attention to the position of the smartphone.

① Wireless charging begins by adorning and placing a MagSafe compatible smartphone onto the wireless charging area of this product as shown in the image above.

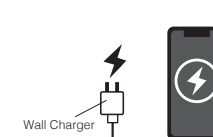

② Connect this product and a device that supports cable charging with a charging cable and charging will begin. If charging does not start automatically, press the "Battery level check button" on the side of the main unit.

• Wireless charging is up to 5W and cable charging is up to 5W, for a total output of 10W.

- If you charge two devices at the same time, the output to each device may be lower so charging will take longer.
- When charging two devices at the same time does not work properly, please charge them one at a time.
- Charging speed and time vary depending on the connected device.

13

5. Pass-Through Function

1. Connect the product and charger using the charging cable.

2. Pass-through charging will begin when you attach and place a MagSafe-compatible smartphone or other device onto the wireless charging area of the product as shown in the image above.

- ▶ Pass-through charging is a function that allows devices such as smartphones to be charged while the mobile battery is being charged.
- ▶ The product is a Q2 mobile battery that supports complete pass-through charging.
- ▶ The mobile battery is fully charged. It completely stops charging the battery cell and sends power directly to the connected smartphone.
- ▶ The charger is sold separately. A 18W or higher charger is recommended.
- ▶ Charging speed and time may vary depending on the connected device.
- ▶ Pass-through charging takes longer than regular charging.

6. Magnetic Wi-Fi

- ▶ When using wireless LAN, the device may become hot. But this is normal as the device is using wireless LAN.
- ▶ The iPhone's Wi-Fi battery consumption speed is faster than normal. When using Wi-Fi, the device stops charging at beyond 80% by the time the battery is fully charged.
- ▶ How to disable Wi-Fi:
 - ▶ Tap the status bar at the top of the screen.
 - ▶ Tap "Settings" on the screen.
 - ▶ Tap "Wi-Fi" on the screen.
 - ▶ Turn off the "Wi-Fi" switch.
- ▶ Wireless charging is thicker than normal. This is because the device is in the position during charging. Use the device as normal.
- ▶ Please note that the device is not supported for wireless charging when the device is in the foreign object detection (FOD) mode.
- ▶ When using a power cable, the device will not be charged.

Wireless Charging and Wireless Charging

Wireless charging this product and the device may not work if this is not malfunction. The temperature will return to give you gets down to full charge.

Wireless Charge Optimization function slows down the from around 50% to preserve the battery. In order to adapt to the battery, the iPhone may temporarily around 80%. You may be able to charge your iPhone (disabling "Wireless Charge Optimization").

Wireless charging optimization

Your iPhone > tap "Battery" > tap "charging" > tap "battery charging optimization"

may not work with protective cases or covers that block in. In the case of MagSafe, charging cannot be achieved. In the case of Qi, charging may not be achieved. It is recommended to remove the case or replace the case.

Wireless charging will not work properly if the product is not in the correct position

Use a smartphone case with metal or other decorations, and detection function may activate and wireless charging may not be possible.

protective case, be sure to use a MagSafe compatible

7-2:How to Recharge

Connect to the charging adapter using the included USB-C cable. After connecting to this product, remaining battery power indicator will show on the with the USB-C port will blink, and if "100" displayed, power storage is complete.

- In order to perform fast charging, Power Delivery will support quick charging and a charging cable.
- When considering long-term battery life, it is best to charge at 50% rather than keeping it fully charged or empty and discharging within this range will prevent battery life.
- In order to perform rapid power storage up to 50% within 30 minutes, it is recommended to use a USB-C 20W output or higher.
- The charger is sold separately. Please prepare separately.

15

16

8.Warranty

Thank you for purchasing CIO product. If the product has any defects such as initial malfunction, We will replace it as an initial malfunction product. In case of malfunction occurred within the warranty period or correct use, we will also replace it.

Invoice/warranty or dealer's receipt will be necessary so please keep it. The product will be guaranteed for replacement with it.

Please note that we do not accept returns or refunds.

Please note that the warranty cannot be provided in the following cases.

1. Accident due to careless handling while using it.
(e.g. dropping, submerging and so on.)
2. Failure due to any internal modification by the user.
3. Failure due to fire or water damage.
